DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Wilkin et al. (3,648,088)

Regarding claim 1, Wilkin et al. show a homopolar machine comprising:

- A shaft (14);
- An armature (13) coupled to the shaft and mounted so as to rotate with said shaft;
- At least two stators (11a, 12a) that encircle the armature,
- A negative bus connected to a first stator,
- A positive bus (16b) connected to a second stator,
- A first negative brush (17a) carried by said first stator for contact with said armature at one location (right side in Figure1); and
- A second negative brush (16a) carried by said armature for contact with said second stator.

Regarding claims 2-18, it is noted that Wilkin et al. also show all of the limitations of the claimed invention.
